COVER LETTER

Dear Sir/Madam,

I am writing to express my interest in a Salesforce position within your organization. I bring 8 years of professional experience in the software development industry, including five years of dedicated experience within the Salesforce ecosystem. Throughout my career, I have worked as both a Salesforce Administrator and Salesforce Developer on international European projects, gaining hands-on experience in CRM administration, workflow automation, user support, platform maintenance, security, and developing scalable Salesforce solutions.

I am currently employed as a Salesforce Administrator/Developer at Better Collective, where I work closely with cross-functional teams to deliver reliable and business-focused Salesforce solutions. My experience includes designing and maintaining Salesforce automation using Flows, managing user access and security, supporting business stakeholders, improving system efficiency, developing custom solutions using Apex and Lightning Web Components (LWC) where required, contributing to system integrations, and delivering dedicated Salesforce development projects from design through implementation.

Experienced in AI-enabled development workflows, including Salesforce integrations using MCP servers and custom AI tools. Primarily leverage Claude AI to accelerate development, and enhance engineering productivity.

I'm seeking an opportunity to further develop my career within an innovative organization where I can contribute my technical expertise, collaborate with talented professionals, and continue expanding my knowledge of the Salesforce platform while delivering meaningful business value.

Academically, I hold a Master of Business Administration (MBA) from the University of Northampton (UK) and a Bachelor of Engineering (BEng) in Software Engineering from London Metropolitan University (UK). I am fluent in English and recognized for my analytical thinking, problem-solving abilities, effective communication, and ability to work successfully within multicultural teams.

I would welcome the opportunity to discuss how my experience and enthusiasm for Salesforce can contribute to your organization's success. Thank you for considering my application. I look forward to hearing from you.

Yours sincerely,

Richard Jason Simmons
